TO: Mayor Steve Young, City of Kennewick  
President Don Barnes, Port of Kennewick  
Barbara Johnson, Board Chair, Kennewick Public Facilities District

RE: Recent decision on alleyway between the Three Rivers Convention Center  
and the Toyota Center

The Board of the Alliance for a Livable and Sustainable Community (ALSC) would like to congratulate the City, Port, and Kennewick PFD for their collaborative efforts on the redevelopment of the expanded entertainment district and Vista Field. Thank you!

Cooperation between the three entities is very encouraging. When we read about the level of cooperation that is happening between these intertwined projects, it gives us hope as citizens and taxpayers that this project is being well-managed and carefully planned. The success of the redevelopment of Vista Field is very important to this community as it has the potential to add millions of dollars of value to our local economy, expand the tax-base, and improve the quality of life for all Tri-Citians.

It is our belief that through continued collaboration and concessions, you are securing support for the entire project, and ultimately for the requisite investment necessary for construction.

The Alliance for a Livable Community wants to acknowledge and applaud the spirit of cooperation that is taking root. We are hopeful that it leads to a formal partnership or a Memorandum of Understanding that will serve as a model for future Tri-City projects.

Well done!
